

Tip #1: It is recommended to complete the in-game tutorial level even if you are familiar with VR games. This is because specific game controls such as “Use” are required to complete the adventure. The in-game menu is also explained and demonstrated including saving and loading games.

Tip #2: If you are deaf or hearing-impaired, turn on closed-captions using the in-game menu.

Tip #3: Save your game progress each time you complete a logical portion of the game (a puzzle, for example).

Escape Room VR: Vaudeville Help and Hints

Main Room Keypad #1 (with note above) Spoiler Hints:

- Light the candle with one of the matches. If all matches have been lit, the magic wand can be “used” to light the candle.
- The corresponding books are: *Time Machine*, *Treasure Island*, *Gulliver's Travels*, and *Houdini on Magic* (hidden in the desk drawer). Each book has a number on one of its edges, written in “invisible ink.” Each book should be held near the candle flame to reveal its number.
- The corresponding numbers are: 9,4,5, and 7.

Escape Room VR: Vaudeville Help and Hints

Elevator Puzzle Hints:

- There are no spoilers since each instance of the puzzle is randomly generated. This classic “light on/off” puzzle can be solved using several different methods including a top-down, two-pass method. There are also generic “light-on/off” solvers on the internet.
- New as of 7/8/21: Use the puzzle bypass button to skip this puzzle.

Top-down method:

- 1) Starting from top to bottom, touch each button directly below an unlit button.
- 2) After reaching the bottom, you should have one of the 6 patterns in the bottom-right or bottom-left corners, where the “Os” represent unlit buttons.

- 3) Pick either corner and match the unlit buttons to one of the six patterns above. Once you have located the matching pattern, press the buttons marked with a red “X” (at top)
- 4) Proceed from top to bottom touching each button directly below an unlit button.
- 5) If you have done it correctly, the puzzle will always be solved after two passes. If not, start at step #1 and repeat the process.
